CONGRESSMAN PETERS CROSSES THE LINE WITH AN OLIVE BRANCH.

CONFRONTED BY A BIG TASK.

FINDS KNIVES DRAWN AND SPOILS-MEN EAGER FOR BATTLE.

Fusionists Believe They Will Become Musters of the Situation Before the Convention Next Saturday - Straights Will Fight to the End.

Congressman Mason S. Peters abandoned his business at the stock yards yesterday nd spent the day with his henchmen in Kansas City, Kas., for the purpose of making an examination of the ruction in the fusion forces caused by the riot at Democratic meeting Saturday. It is natural for the congressman to be greatly atterated in the congressman to be greatly exterested in the fusion family in Wyan-otte county, as he is figuring on a second erm at Washington. He held secret concretices with a number of the fusion leaders, and as he boarded a street car for he Missouri side his face hung so far own that it came in contact with his result.

wast.
Mr. Peters was seen by a reporter for The
scrnal just after his last caucus, and
as asked what he thought would be the
scome of the Democratic rebellion.
I think it is a good thing for the Demoratic norry. Said he: "you know the "I think it is a good thing for the Dem-cratic party." said he: "you know the len ocrats are just like cats; that is, they ght like cats. From my experience in ollites the more the Democrats fight the nore Democrats there are. That man leave should not be held responsible for that he says and does. He should never taken seriously. It's unfortunate, but her Lemocracy is not responsible for this ad state of affairs, and the local Demo-rate should not criticize, but instead heads sympathize."

cuid sympathize." Congressman Peters endeavored to look Congressman Peters endeavored to leok pleased over the result of his conferences, but his internal feelings showed plainly on his countenance and there is every reason to believe that he is sorely disappointed over the rupture that has occurred in the local Democratic party.

The Democrats will meet again Saturday and make another effort to get together. The majority of the Democrats are in favor of fusion, but there is a good sized minority who are opposed to such a deal. It is predicted that those who are opposed to fusion will be lashed into line or not given a voice in next Saturday's meeting. The bosses are for fusion, as with such a combination they will name the Democratic nominees and the little fish will then swim or float, as they may see fit to do.

The colored children of Argentine at tended a Sunday school plent yesterday at Troost park. They were in charge of Elder Green, George Ford and Dr. Harvey.

Attorneys Dow McClain, W. A. Snook, John T. Sims and A. W. Little, of Kansas City, Kas., were in Argentine on business systemally. No politics in it, of course.

At the regular meeting of the city council to night important business will come up. The city has been ordered by the district court to pay the amount of the Shook judgment forthwith.

Dr. Lewis, in the absence of Dr. Clopper, the Santa Fe surgeon, was yesterday called to attend a woman passenger on an east bound train, who was very lil. He accompanied her to Kansas City.

Neither Dr. Doyle nor Senator Zimmer has made himself conspicuous on the streets since the fight which broke up the meeting. It is reported that Senator Zimmer sought Doyle after the trouble had quieted down and made an apology. Police Commissioner J. W. Jenkins, secretary of the county central committee, stated yesterday that he was in favor of appointing two large, muscular men as a regaminatarium at the next meeting, and then if any committeeman attempts to run sergeanis-at-arms at the next meeting, and then if any committeeman attempts to run the meeting have him hastily ejected from the room. It is likely that this suggestion will be adopted and put into force. Unless something is done to prevent, round two is sure to be fought Saturday. Should another row occur something very serious will no doubt happen, as the committeemen will so prepared for trouble this time. The Popullists have already made a division of offices and this premature action on their part may stir up a fight, as the Democrats always like to make the division themselves.

### CONTEST OF CANDIDATES.

Sub-Committee of County Republican Committee Looks Into Claims of Drs. Todd and Thompson. The sub-committee of the old Wyandotte

county Republican committees will meet some time this week and hold the contest over the nomination of coroner, Dr. V. L. Todd, the present incumbent, was declared the nominee at the recent primaries by just the nominee at the recent primaries by just all votes, and Dr. S. H. Thompson, his opponent, filed contest papers with the new county central committee at its meeting Saturday. As the call for the primaries provided that the sub-committee of the eld central committees should have complete supervision of the primaries and to decide any contest that might arise, the new central committee refused to have anything to do with Dr. Thompson's contest and left it entirely with the sub-committee te dispose of.

test and left it entirely with the sub-committee to dispose of.

The sub-committee has not yet certified up to the county clerk the names of the paccessful candidates and it is not likely that this will be done until the rightful pominee for coroner is settled. Dr. Thompson is a colored physician, and the relored element is positive that a convass of the returns will prove him the nominee. The colored people claim that they are entitled to one place on the teket and propose to context the nomination of Dr. Todd very closely. In the entire county Todd received only a majority of il votes over Dr. Thompson, in the city they ran neck and neck. The context will be watched with much interest by the colored Republicans of this city and county.

freight traffic is handicapping him to no little extent.

Mr. McGonigal ruins from this city to Junction City over the Union Pacific, and he says for the past ten days he has been working day and night. I have been in the railroad business for a number of years said he last night, but never before have I seen business so good. The freight traffic on the Union Pacific has more than doubled during the past two weeks, and about the only rest regular men are getting now is what they can steal on the train. The bulk of the business is sheat, but there is much stock moving.

Mr. McGenigal, who is noted for truth and veracity, stated that it would take the refireads fully nine months to hall all of the grain out of Kansas. He says the fermers on the Union Pacific are as happy is children on a Christmas eve.

Sims and John Laeminger had a narrow escape from being drowned Sunday afternoon while boat riding on the lake at Fairmount park. They were about the center of the lake, when the boat sprung a leak, and before they could row to the shore the boat commenced to sink. Neither of the men could swim. They succeeded in getting within about ten feet of a landing when the boat sank. The water was only waist deep and the two Kansans escaped with but a scaking. People who witnessed the incident claim that they did more hollowing than a Kansas Populist. Judge Sims denies that he was even frightened. Mr. Lieninger is non-committal.

Senor Canovas del Castillo before August 15, and to assassinate Senor Sagasta before August 30.

AN ACT OF RETRIBUTION. Delegate Palma Talks of the Murder of Canovas-Thinks It Will Help Cuba.

MeBride was quite advanced in years.

Professor W. L. C. Palmer, of this city,
was among those to whom State Superinendent Kirk issued a life certificate for
eaching school. Professor Palmer has been
connected with the high schools of this
lity for a number of years, and the comsliment is considered to be deserved.

Another of those nominar laws concerts New York, Aug. 9 .- At the headquarters of the Cuban junta to-day, Delegate T. Es-trada Palma talked briefly about the asassination of Spanish Prime Minister Cansassination of Spanish Prime Minister Canovas. He said that in his opinion Canovas
was more responsible for the outrages in
Cuba than was Weyler, and his killing
seemed to be an act of retribution. At the
same time, the Cuban party had nothing
whatever to do with the death of Canovas,
and had had no knowledge that such an
act was even contemplated by anarchists
or anyone else. Silvala, who was second to
Canovas in power, although a member of
the Conservative party, has expressed the
opinion that if he had the power and was
in possessior, of the absolute knowledge
that the Cuban difficulty was the cause of
the general uprising of the Cubans, and
not of any clique, he would advise the
Spanish to evacuate the island.
Dr. Palma said that, from every view,
the confusion caused by the death of Canovas could not but help the Cuban cause.
The Cubans had no expression of sympathy
to make for the act of the assassin, but at
the same time Cubans could not but feel
that they would benefit by it. Canovas had
been threatened by the anarchists of Spain
and of France, who are closely allied, Dr.
Palma expressed the opinion that if Silvala ovas. He said that in his opinion Canovas Brown arrested on a charge of seduction. When the case was called in Judge Withrow's court Brown promised the justice that he would marry the girl as soon as he could get money to pay for a license. The court gave him two weeks to raise the money and released him on bond. Yesterday afternoon Brown came into court with Grace on his arm and a marriage license in his pocket. The justice performed the ceremony and dismissed the charges against Brown. Both parties are colored.

been threatened by the anarchists of Spain and of France, who are closely sillied, Dr. Palma expressed the opinion that if Slivalia should be selected to succeed Canovas, General Polavelja would succeed Weyler. General Polavelja has recently returned to Spain from the Philippine islands. The Cubans would not receive any more humane treatment at the hands of General Palavelja, as he is a heliever, Dr. Palma says, in the Weyler methods of outrage and assassination. The Cuban army had fought in a manner which had commanded the respect of all nations, while Weyler and his menhad brutally outraged and committed outrages which called for the condemnation of all civilized people.

In conclusion, President Palma said that the Cubans would not accept less than absolute the condemnation of the condemnation of all civilized people.

he Cubans would not accept less than absolute independence.

The rooms of the Cuban junta were crowded with the members of the party, all of whom expressed themselves in condemnation of the act of murder committed by the Italian anarchist.

# HOW TO TREAT ANARCHY.

London Papers Advocate Stamping It Out by Force, as Russia Crushed Nibilism. London, Aug. 9.-The afternoon newspa

ers in their comment upon the assassing

pers in their comment upon the assassination of the Spanish prime minister express themselves on the same lines as the morning papers, remarking upon the incomprehensible idiocy of the murder of the man who was mainly responsible for giving universal suffrage to Spain. They also advocate the suppression of anarchy by force, and point out that the history of nihilism in Russia proves that force consistently and steadily applied is the remedy for clearing out the pestilential game. The St. James Gazette regards the death of Senor Canovas del Custilio as being a heavy disaster for Spain, adding:

"The murder will destroy the aircady unstable administration, and in the pick of a successor of the late premier, the queen regent's position is most difficult. She may be driven to call upon some soldier, Campos or Polavelja, which would be a misfortune to Spain abroad. The crime must have one consequence—to make the kaiser and his brother sovereigns less disposed to adopt gentle methods with socialism."

Some of the French socialist newspapers induge in a rather heartless vein. For instance, La Petite Republique says:

"He who strikes shall himself be struck. The history of the Canovax ministry is written in blood. He revived antique barbariem and so deserved his fate." tion of the Spanish prime minister exm legal business.

Mrs. Edith Douglass 59 years old, died at the home at 605 Cottage street vesterday it 2:30 p. m. of a cancer. Funeral arangements have not been made. At a meeting of Harbers' Union No. 132, of Kansas City, Mo., last night, resolutions of sympathy were passed for the striking niters in the East, and 30 donated toward relieving their present destitution. The wno strikes shall nimser be struck. The history of the Canoyas ministry is written in blood. He revived antique barbarism, and so deserved his fate."

This, however, is exceptionally cynical. All the respectable journals express symmetry. There were 189 deaths during July, of which 102 were males and 87 females. Sixty-five were under 1 year of age and 12 between 1 and 10 years of age. There were Il coroner's cases in the city and 2 outside.

This, however, is exceptionally cynical. All the respectable journals express sympathy.

La Patrie deciares that all the plots of such murders have been arranged in London, and suggests that the powers should combine to watch the country that protects the criminals.

Without going so far as this, many German and other papers advocate combined European action to suppress anarchism. The Vienna papers take a pessimistic view as to the effects of the crime on Sponish politics.

The Italian press heaps execuation upon the miscreant who has put to shame and disgrace the Italian name and nation.

The Daily News, commenting cilitorially this morning on the "official fatuity of allowing a notorious anarchist to travel with Canovas," adds: "All talk about the independence of Cuba or about a Spanish republic is obviously beside the mark."

exuberance that attaches to a concatenation.

Due deference was paid to the occasion
and the character of the class and a special programme was rendered that included
the most celebrated "caterwaulings" ever
produced. The candidates for advancement
were not insensible to the painstaking attention that had been given to the arrangement of the programme in their honor.

The Hoo Hoo, be it known, is an organization of men interested in the manufacture and sale of lumber. Railroad officers
and newspaper men are also admitted. The
order was conceived in a rain storm and
born in a country hotel in Arkansas. The
ritual was largely the product of the brain
of Boling Archer Johnson, of Chicago,
and in no way resembles that of any other
organization. The emblem is the black cat,
the token by which it wins is the figure 9.

Nine officers are necessary to hold a concatenation.

The Supreme Nine, under whose direction the candidates were received into the order last night, were:

R. S. Oliver, Moberly, Mo., snark, Harry A. Gorsuch, senior hoo hoo; J. M. Bernardin, junior hoo hoo, Alson A. White, legum; E. R. Sweeney, scrivenoter; J. A. Nutiman, Pittsburg, Kas., jabberwock; J. H. Fetty, custocattan; J. Anson, arcanoper, W. F. Davis, gurdon.

While outsiders were not informed exactly, it can safely be stated there never was such a snark as Mr. Oliver, and no other bogum can approach Mr. White, while in his role as jabberwock, Mr. Nutiman beats the record.

The caterwaulings of the concatenation died away about 1 o'clock this morning, and the "kittena" went to rest.

There are about 200 Hoo Hoos in and near Kansas City.

### IT MAY RAIN AND IT MAY NOT. Observer Connor Takes No Chances in

Forecasting the Weather for To-day. Stationary temperature with light, varis ble winds and possible showers sums up Mr Cornor's weather forecast for to-day. Mr. Connor says the atmospheric conditions are so balanced that it may rain and it may not, a prediction which stands an excellent chance of fulfillment. The weather observer qualifies it, however, with a statement that if it does rain it will be only in the form of showers. The humidity, he the form of showers. The humidity, he says, will be about normal. It was rather more than normal yesterday, and with about the same temperature to-day the heat should not be severely felt. A refreshing shower yesterday afternoon had driven the thermometer down to 77 at 10 o'clock, where it remained until after 6 but had climbed to 78 at 7 o'clock. The hourly temperatures yesterday were as follows:

The wife of Caleb Willis, a janito iving at 1993 East Tenth street, deserted living at 193 East Tenth street, deserted yesterday afternoon, and when Willis returned from his work last night he found no supper on the table nor was his wife there to greet him with a smile. He searched the house with increasing anxiety but his missing companion was nowhere to be found. He rushed trantically about inquiring of all the neighbors and ended his fruitless quest by asking the officers at the Central police station. Willis has been married but a short time, and the disappearance of his wife has nearly crazed him.

MRS, CATHERINE KEISER, AN EARLY SETTLER, PASSES AWAY.

the First Wife of James A. Hutchinson, One of the Prominent Men in the Early History of Kansas City.

Another old resident of Kansas City has passed away. Mrs. Catherine M. Kelser. aged 72 years, died at the home of her daughter, Mrs. E. I. Beardsley, at 1823 East Sixteenth street, at 12 o'clock Sunday night, of kidney troubles. She came to Kansas City forty-seven years ago, and was probably the oldest female resident.

Mrs. Keiser was born in Richmond,

Va., and was the daughter of Colonel Warren, an old Southern planter. She was
closely related to the late General Robert
E. Lee and many other prominent Virglinia families. She was married to James
A. Hutchinson, a wealthy queensware merchant of Richmond, in 1847. Several years
later the young couple, with their three
children and twenty-six negro slaves, removed to Northern Missouri, where they
remained for some time, when they started
down the Missouri river on their way to
Texas, where Mr. Hutchinson intended locating. Va., and was the daughter of Colonel War-

children and twenty-six negro slaves, removed to Northern Missouri, where they remained for some time, when they started down the Missouri river on their way to Texas, where Mr. Hutchinson intended locating.

Just before reaching Westport Landing, as Kansas City was then known, the three children and several of the negroes were taken with the measles, and a stop was made here in order to obtain medical assistance. In fifteen days the three children and eighteen of the slaves had died of the disease. Mr. and Mrs. Hutchinson were stopping at the old Southern hotel on Grand avenue, which was the first hotel built in Kansas City. After the death of her children Mrs. Hutchinson chone to remain here, and instead of going to Texas Mr. Hutchinson embarked in business here instead, buying an interest in a large warehouse on the levee, in which the firm was also interested in a stage line which was in operation between Kansas City and Santa Fe, N. M. Just before the war broke out Mr. Hutchinson converted most of his pessessions into cash, and, being in delicate health, retired from business.

He owned at one time the ground upon which afterwards stood the old Gilliss hotel, and after the war he conducted the management of the botel for quite awhile. Mrs. Hutchinson was a warm sympathizer with the Confederacy during the war. She did not hesitate to express her feelings nor attempt to conceal the fact that she abhorred the bluecoats, and was once arrested for disobeying some martial law at a time when the town was under guard of the Federals. In June of the second year of the war a hurricane blew down the stockade where were confined all of the Confederate prisoners and Federal wounded. During the storm of that night Mrs. Hutchinson want to the rescue of the wounded and dying, and worked all night, administering to the sick and assisting in laying out the boddles. Three of the wounded were carried to ben home and with her own hands she nursed them back to life. She owned at one time a tract of hirreen access of land upon t

#### FIRE CHIEFS PASS THROUGH. Bert Walden, of Wichita, and Larkin Norman, of Kansas City, Kas., En

Route to Annual Convention. Bert Walden, chief of the fire department of Wichita, spent yesterday in city visiting his brother, Mr. G. M. Walden, and calling on friends. He is en route to Cincinnati to attend the annual meeting of fire chiefs. In all the changes in politics in Wichita and during the many upheavals in public sentiment in city, state and national matters, they never concluded to launch upon the dangerous experiment of deposing a competent fire chief for a chance to get another good one. Mr. Walden has been chief of the Wichita department for ten years and has always been equal to efficiency in protecting property and life. He is one of the oldest chiefs in the service in the state, as well as one of the best in the state.

Mr. Walden will leave this evening for the East. He will be accompanied by Larkin Norman, chief of the Kansas City, Kas., fire department.

George C. Hale, chief of the fire department, and John F. Pelletier, superintendent of the insurance patrol, will leave for the convention to-morrow. ment of deposing a competent fire chief

#### ONE NIGHT IN KANSAS CITY. Firemen's Relief Association May Tr an Original Plan to Raise

Money. The Firemen's Relief Association, whose treasury has been depleted by the expenditure of \$5,000 the past year, decided at a meeting yesterday to give a grand enter-tainment some time this fail. The plan discussed yesterday was the representa-tion of a Kansas City night scene, to be given within a canvas enclosure. Every-thing from a drunken row to a run of the fire apparatus would be given with fidelity to life.

### Diminished Power

From the Washington Star.

"I don't know what to do about that man," remarked the puglist's manager.

"Oh, he'll make a record as a heavy-weight," was the assuring response.

"I don't know about that. He caught cold, so that he can't speak above a whisper, and I'm afraid I'll have to enter him in the feather-weight class if his voice doesn't get better."

From the Chicago Post.

"There's nothing slow about Jones," he said reflectively.

The other laughed scornfully.

"I guess you never louned him any money." he said.

"Oh. yes, I have," teplied the first speaker. "That's what made me speak that way. I loaned him file six months ago and I have not been able to catch him since."

### Trencherous Memory.

From the Indianapolis Journal.

"Miss Fidlet," said the summer young man, "the time has come when I can no longer conceal my regard. I love you as never I loved a girl before."

"Why," said the summer girl, blithely, "you ridiculous creature! Don't you remember? You loved a girl in this very same way last year. And I was the girl!"

A Burst of Generosity. From the Wastington Star.

"You say that you want money to buy food for a hungry man whose face you never saw up to this time?"

"Yes. sir." replied Meandering Mike.

"Where is he?"

"He's standin right here," was the hesitating reply. "I'm here."

#### \*\*\*\*\*\*\*\*\* Ten Reasons Why

The members of the Kansas City Commercial Club and all manufacturers and merchants of Kansas City should favor the Atchison, Topeka & Santa Fe Railway with their patronage:

Railway with their patronage
FIRST—It furnishes more territory in which Kansas City can
profitably distribute goods than
any other railway.

SECOND—It makes a specialty
of fast time in making quick deliveries by "solid car arrangements to all principal points,

THIRD—It paysout more money
for labor and material, employs
more men and supports greater
population than any other railroad in the territory tributary to
Kansas City.

FOURTH—It has more property
and pays out more taxes than any
other institution in Kansas.

FIFTH—Its freight depot receives freight for points in more
states and territories than that of
any other railroad, thereby saving Kansas City shippers drayage.

SEVENTH—It brings more farm
products to the Kansas City market than any other railroad.

SEVENTH—It brought into the
Kansas City Stock Yards during
1896 over 35 per cent of all the live
stock received.

EIGHTH—Its dining cars are
the best in the world, and its cating houses the best in America.

NINTH—Its equipment, its service, its roadbed and its track are
interior to no other Western railway.
